# LOCALISING STRATEGIES FOR MAKING CITIES RESILIENT TO DISASTERS

**22nd to 26th January 2018, De La Salle University, Philippines**

The Newton-Agham Researcher Links on “Localising Strategies for Making Cities Resilient to Disasters” is a five day workshop for early career researchers from the UK and the Philippines. The workshop adopted the UNISDR’s “Ten Essentials (10E’s) for Making Cities Resilient” as the framework for the discussions. The workshop provided a unique opportunity for sharing research expertise related to the theme on making cities resilient and networking among the participants.

## Principal Investigators

Dilanthi Amaratunga (U. Huddersfield)

[d.amaratunga@hud.ac.uk](mailto:d.amaratunga@hud.ac.uk)

Andres Winston Oreta (DLSU)

[andres.oreta@dlsu.edu.ph](mailto:andres.oreta@dlsu.edu.ph)

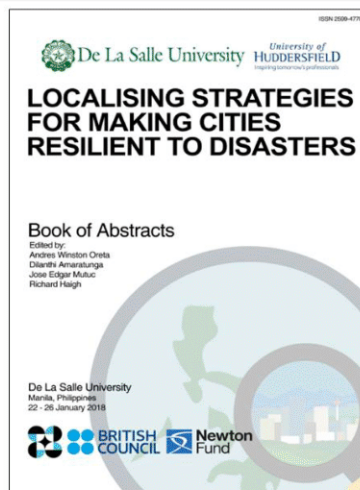

## Mentors

Richard Haigh (U. Huddersfield)

Jose Edgar Mutuc (DLSU)

Renan Tanhueco (DLSU)

Abhilash Panda (UNDRR)
